

## **Highland Church of Christ (Christian Church, Instrumental), Robinson, IL Worship Minister Search**

Highland Church of Christ is a contemporary church in a rural area that has a track record of growth and outreach to both the surrounding communities and the world. Highland is an independent, instrumental Christian church of 600+ located in the southeastern Illinois city of Robinson, and is searching for a minister to lead our worship and worship technology areas.

We're looking for someone with a passion for leading the congregation to worship, the ability to create environments to help them connect with God in a significant way, and the skills to utilize appropriate technology to accomplish both. We're searching for a leader who relates to both artists and non-artists and can recruit, equip, develop, and deploy other leaders who share that passion for effective worship.

This level of leadership requires an above-reproach lifestyle and a complete commitment to God's Word, as well as a full buy-in to Highland's Mission and Core Values, as well as our Belief and Teaching statement (see the Highland website for these documents). Also important to us are a college degree in an appropriate discipline, and experience in planning and leading worship in a medium to large size church. The position description goes into more detail on responsibilities.

To help you create an effective worship ministry and environment, you'll be part of an elder-protected, staff-led leadership model that encourages innovation and smart risk-taking. You'll also have the support and partnership of an experienced staff team. In addition, the auditorium is modern and offers programming flexibility with an array of first-rate technology.

Compensation is competitive and includes a retirement contribution and insurance package.

If you're interested in possibly joining our team, submit your resume and letter of interest to Mike McElyea at [mike@hccrobinson.com](mailto:mike@hccrobinson.com).
